

**1978 DENTAL
COLUMBIAN**

Dental hygiene

DR. WILLIAM MCGILL
PRESIDENT OF COLUMBIA UNIVERSITY

DR. PAUL MARKS
VICE PRESIDENT FOR HEALTH SCIENCES

DEDICATION

TO MY HUSBAND,

THE LECTURES, THE TEACHING, THE CONSULTATIONS, THE PLETHORA OF PUBLISHED WORKS, THE MINISTERING TO PATIENTS: ALL THIS AND THE CONSTANT THINKING, GIVING AND LIVING OF DENTISTRY HAS BEEN AN INSPIRATION TO YOUR FAMILY AND ALL THOSE WHO HAVE CROSSED YOUR MANY PATHS.

YOU ARE NOW ABOUT TO EMBARK ON A NEW LIFE AND WE ALL HOPE THAT THIS SECOND LIFE OF RETIREMENT IS AS FULFILLING AS YOUR FIRST. HOWEVER, BEING ALL TOO FAMILIAR WITH YOUR DRIVE AND VERVE, WE MUST ADMONISH YOU WITH THE ADAGE "ALONG THE WAY TAKE TIME OUT TO SMELL THE FLOWERS."

YOU HAVE HAD A REMARKABLE LIFE AND WE ARE GRATEFUL FOR ALL THE BLESSINGS WE HAVE RECEIVED.

YOUR IRENE

To The Class of 1978

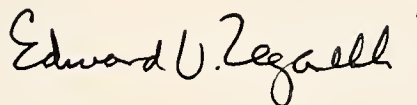

Peculiar though it may seem the graduating Class of 1978 is perhaps the most fortunate and unfortunate class in many a year. You were fortunate in that you experienced some of the old and some of the new --- both in regard to clinical facilities and teaching methods, and, you were unfortunate in that you enjoyed but one year in the midst of the new environment and even that was a "shakedown" year.

We are especially grateful to this class for living with us through two of the most hectic years in the history of our school and you did so with patience and understanding --- without any signs of complaint. But there was one climatic episode which to a small degree at least compensated for some of our frustrations and dissatisfactions --- the Dedication Day Ceremony of December 8th, 1977! And what a helpful and delightful role your class played in this memorable day's events!

I am especially attached to this class for several other reasons but perhaps the most important is that this is the last class to be graduated during my tenure as dean and as such you will forever hold a particularly warm spot in my heart.

Your faculty and your fellow students join me in congratulating every member of the dental and dental hygiene classes for a superb performance record and we are confident that you will continue to do us proud during your professional lives.

May the Good Lord bless you with the ethics of a judge, the skills of a professional and the compassion of a saint.

A handwritten signature in black ink, reading "Edward V. Zegarelli". The signature is written in a cursive, flowing style with a large, prominent "E" and "Z".

History, Referral, Assignment, Treatment and Payment Records

DATE	DIVISION		FEE
5/2/77	CARDIODONTICS	<u>CC</u>: Heartache; chest sensitive to heat relieved by cold; paroxysmal heartburn. <u>PH</u>: Patient states past hx athlete's tongue, blind teeth, seeing eye teeth, black hairy bite, pulpal hysteria, nocturnal syneresis. Hx does not contra-I routine cardiodontic care. <u>PI</u>: Previous chest sensitivity to cold, relieved by heat & topical Vic's. Last seen by cardiologist 5 yrs. previously, at which time subendocardial scaling was performed and patient given instructions in home care (eg. cardiac flossing, rubber tip). <u>CE</u>: Cardiac muscle shows no response w/ DC pulp tester confirming heart non-vital. Roentgenographic exam displays periventricular pathosis (PVP), widened pericardial ligament, accretions (cardiac tartar), grasping auricles, and an impacted bicuspid valve. <u>DX</u>: Acute gangrenous necrosis of the cardiac muscle, due to poor cardiac hygiene. <u>TX</u>: Heart extraction <u>Op Note</u>: Under local anesthesia (2% Xylocaine w/ 1:100000 epi) the anterior chest wall was penetrated with a Ward's #5 cardiostome, and the pericardial sac rendered open. The cardiac muscle was elevated using the East-West cardiotome and a purchase obtained with the Popeil Pocket Fisherman. After 5 mins. of careful luxation, the	

Dental and Oral Surgery

		pericardial ligament released its grip and the cardiac muscle was delivered. The heart socket was curetted and a careful check made for remaining heart tips, of which none were found. Also, the pulse tested negative. Therefore, the surgical wound was packed with iodoform gauze to allow drainage. The patient was given Tylenal prn pain and instructed to avoid jogging and heavy exercise pending formation of a clot. Tolerated procedure well and to return in 7 days for post-op evaluation.	
5/9/77	CARDIODONTICS	Patient complains of searing pain emanating from operative site. Exam reveals forceps & daisy chain inadvertently left in site, as well as no granulation tissue. DX: Dry heart socket (cardio sicca). Sedative dressing was placed following saline irrigation. To return in 5 days.	Tylenal Dursus
5/14/77	CARDIODONTICS	Patient states pain has subsided and exam reveals normal healing. Referred to module for construction of porcelain-fused-to-flesh restoration (wants no metal showing)	Farguar Dursus

PEDODONTICS QUIZ

- (1) List all of the requirements for a cotton roll in Pedodontics starting each item at the third word as given in class, without using any words that contain the letter "d" (esp. such words with "d" that refer to "baby teeth") and juxtaposing alternate phrases in consecutive even and odd numbered items.

- (2) If the letters of your name represented the dentition of a patient in the pedodontics clinic what class of occlusion would be present?

- (3) How would you write your name in the Palmer notation?

- (4) What is item #72 in the list of functions of the appointment card in pedodontics?

- (5) List the components of the dye used in the printing ink in the folder that comes in the box with pedodontic contra-angle handpieces.

Bioblend.

A little extra insurance
that your denture patients will
like the way they look.

A denture patient's attractive natural smile speaks volumes about the dentist—his care, his skill, his total concern for the patient's physical and psychological well being. And that same smile says something important about the teeth, too.

Trubyte Bioblend Anteriors.

Available in porcelain and plastic.

ALL MEET O.S.H.A. REQUIREMENTS

We take pleasure in announcing our newest product — the Pro-tecto Splash Guards for Grinding, Polishing, Detail Work and Air Brush.

- Splatter Free
- Resilient, Durable, Shock Resistant Plastic
- Less Breakage or Deformation of Dental Prosthesis
- May be connected to existing suction systems, if desired
- Available in right or left hand side (only difference is placement of light)
- May be used w/handpiece for detail work
- Supplied w/3 wire ground plug

* All units available with Suction Motor, and Dust and Gold Collector at an additional cost of \$65.00

* Extra Glass with Magnification Bubble \$3.50.

For the way you practice now.

Mix and match.

Design your own custom installation with AVANTI mix and match modular components. Ideally suited for the individual requirements of orthodontists, endodontists, periodontists, hygienists and dental assistants.

Avanti Arm.

His or hers.

Mounts anywhere, left or right side, front or rear onto walls, cabinets, poles or counter tops. Full orbit horizontal positioning for 2-handed or 4-handed dentistry.

Avanti Arm.

Stand or sit.

Exclusive vertical height adjustment component for standup or sitdown dentistry. Unique snap-in self lock joints prevent accidental come apart when being raised or lowered.

Avanti Arm.

No installation.

No serviceman needed, installs in minutes using only a screw driver. Supplied as 12" interchangeable modular components with a 10" x 15" stainless steel swivel tray. All components heavy duty mar-resistant and are also available with bearings of brass and stainless steel for a lifetime of maintenance free service. Avanti Arm as illustrated for wall, cabinet, counter top or pole mounting.

If building your new office is the first time these men worked together, you may be in trouble.

Constructing your professional office takes teamwork. Quite bluntly, its absence could cost you a bundle. But you can't know the pitfalls if you've never built or remodeled an office before. So here's a few tips.

You'll need . . .

- a registered dental architect experienced in such problems as patient flow, staff interfunction and administrative procedures
- a qualified interior designer skilled at blending minimum maintenance into dramatic yet functional aesthetics
- a trained specialist to advise you on just the right equipment to suit your specific operating procedures
- a certified builder to fulfill the design as you visualized it, on time and within budget
- a reliable service representative to promptly and courteously resolve any problems

That's the heart of the project. But, there's much more to contend with. So here's the best tip of all. Get a team of professionals right from the start. That's where we come in. We're experienced specialists in professional office design with every service you'll need right under one roof. One call gets us all. Contact us today for a free consultation.

Creative Professional Environments

We take pride in the job we do, so you can take pride in the job you do.

At Jelenko, we understand how you feel as you enter dental practice. Because it's the same feeling we have every day.

The urge to excel... the demand for quality. We take pride in the job we do, so you can take pride in the job *you* do.

Now, there are two ways to put Jelenko's expertise to work for you:

First, call our toll-free number, (800) 431-1785, to get in touch with a Jelenko expert. For technical assistance. For gold price quotations. For ordering. For scrap pickup (we'll even give you free containers and labels).

Second, take advantage of the educational courses at Jelenko's Regional Service Centers. Most are free; for a few, there is a modest fee.

We're working hard to keep Jelenko the leader in consistent, high-quality alloys for crown and bridge restorations and partial dentures.

And we're proud to be serving your profession... we hope we'll be serving you soon.

Park...when a case is a challenge

Above: a lower full arch two unit bridge with posterior telescopic pontics, one anterior.

Left: bridge in place, buccal view.

A difficult mouth rehabilitation case is a challenge. Park helps meet these challenges daily. Full attention is given all aspects of periodontal factors. Embrasure spacing is carefully observed and full regard is given gingival tissue compatibility. From precise biologic contouring, to total preservation of fit and correct margins, your restoration is assured of maximum esthetics and quality at Park.

Park's full dimension techniques:
**Porcelain, Acrylic, Gold, Vitallium,
Luxene, Pin Techniques, and pioneer
